CLAUDIO MARTINOLI

via Montegrappa 30, 21020, Casciago (Varese, Italy)

(+39) 3482915297

claudiomartinoli96@gmail.com

I'm 27, in the IT consultancy field since 2019. During the first years of my career I worked on two projects for some of the most important clients for my company (*Eniservizi* and *Kone elevators*). In 2022 I chose to work for a production company and I got hired in *Axiotek* where I followed design, planning and development of the software embedded in the new generation of durometers. Since a web interface was needed, I started learning Angular to develop a web app. In order to get better with those new skills I decided to find a position as full stack developer, discovering *Akkodis* where I am currently employed.

WORK EXPERIENCE

15 sept. 2023 - ongoing
